RECOMMENDATION

The selectmen would recommend that the town raise two thousand dollars to defray town charges. They would also recommend that the sum of one-half of one per cent. be raised for highways and bridges and that one thousand dollars be raised for State Road.

J. W. SAUNDERS,	} Selectmen of Bristol.
H. T. HEATH,	
C. W. WELLS,	

Bristol, N. H., Feb. 22, 1907

We hereby certify that we have examined the accounts of the selectmen of Bristol for the year ending Feb. 15, 1907, and find the same correct to our best knowledge and belief.

WILLIAM C. WHITE,	} Auditors.
JOHN R. CONNOR,

Amount of posts and railing on hand	100 00
	\$400 00

Union School District No. 2

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens and Parents Residing in Union School District:

The past year has not been marked by any startling events in the public schools, which have pursued the even tenor of their way under the care and direction of the excellent and competent corps of teachers in charge of the various grades.

Some time prior to the commencement of the fall term Miss Nellie Bunton, who had been engaged to continue in the first grade, decided not to return and after considerable effort to secure a teacher in her place, Miss Clara M. Ingalls, who heretofore taught the 4th and 5th grades, very kindly consented to change and assume the work of Grade 1, which has been very successfully carried along under her administration. Miss Mary E. Taylor, who had previously taught in grades 4 and 5, was secured for that school.

Although the winter has been very severe the attendance has been nearly up to the average. The diligent and energetic efforts of the janitor, Mr. Calvin Martin, have been so well directed that the school-rooms have been kept warm and comfortable.

As a whole the health of the pupils has been first-rate. No epidemic has prevailed and the scourge of scarlet fever

so prevalent in many places during the past winter has passed us by thus far.

In addition to the teachers previously named, Miss Parker in the 2nd and 3rd grades, Miss Jebb in the 6th and 7th, Miss Calley in the 8th and 9th, and Miss Emery in the High school and as supervisor of drawing in all grades, have all maintained a high standard of work and influence; have not only interested the scholars in their various studies, but have given them an example and instruction in morals and manners which have been reflected in the conduct of the pupils about the school-room and school yard at least, and elsewhere in our estimation.

In addition to her other duties Miss Calley is also the Principal, faithful, discreet and efficient.

The High School has again been approved for a two years' course and the same excellent work as heretofore has been carried on by Miss Emery.

The teachers have all wrought cheerfully and faithfully in their several vineyards and the students have responded well in interest and effort.

Instruction has been given in physical culture, and physiology and hygiene as required by law.

It would be an excellent idea if our very worthy and learned local physicians would kindly arrange to visit the schools at intervals either as a body or separately as they might decide and make such suggestions as may occur to them relative to ventilation, sanitation and the general health and welfare of the scholars from a hygienic standpoint.

The finances of Union District are in an excellent condition. During the year various interior repairs have been made and a new fence built on the northerly and easterly sides of the school grounds.

The Board hopes to be able to secure some loam in the spring with which to cover the sandy places near the school building and to beautify the present barren spots with nature's own verdure.

As the financial year and school year end at different periods, the tabulated report hereto appended is based upon school data down to the present time.

It would surely be a source of pleasure to the parents of pupils and friends of education, and of encouragement to the Board, the teachers and scholars, if the former would take the time to visit our public schools more often. It is a duty they owe not only to themselves but also to the young people in our schools.

The Board would be glad to receive suggestions from any persons looking to the improvement of the schools in any particular. A more commodious and convenient High school room is much needed and some action ought to be taken to secure one either by enlarging the present building or procuring some building or rooms elsewhere. The present room, which is in fact only an ante-room, is small, poorly ventilated, and difficult to properly heat. Although the present number is small the incoming class will be larger and the accommodations entirely inadequate. The district should take action at the annual meeting in this matter.

The pupils of the district are very much interested in securing a piano for use in the schools and propose soon to hold a school exhibition to raise money for that purpose. It is hoped that all friends of the schools will be present and help the young folks in their laudable endeavor.

The importance of our public school system cannot be overestimated.

Education is said to comprehend all that disciplines

and enlightens the understanding, corrects the temper, cultivates the taste and forms the manners and habits, or a growing up in all things to one's highest possibility.

Hence all good citizens should be deeply interested in the progress and welfare of our public schools. They are the nursery of the nation.

It is of the utmost importance that the minds of our youth be so trained and their thoughts and desires be so directed that they may become strong, upright and intelligent men and women, self progressing and self respecting, of pure character, a credit to themselves and an honor to the community which sends them forth and that in which they dwell.

The responsibility is great. The duty resting mutually upon citizens, parents, teachers, and scholars is correspondingly great. Let each one having a part in this great work perform his duty according to the best of his ability and a good result is assured.

The present members of the Board are, Mr. F. N. Gilman, chairman; Mr. Albro Wells, secretary and treasurer; Mrs. Lena C. Bishop, Mrs. Ada Cavis, Mr. Roswell Cutler, and Ira A. Chase.

Respectfully submitted,

For the Board of Education,

IRA A. CHASE, Supt.

ALBRO WELLS, Treasurer.

This is to certify that I have this day examined the accounts of the treasurer of Union School district, No. 2, and find them correct to my best knowledge and belief.

CHANNING BISHOP, Auditor.

Bristol, N. H., Feb. 22, 1907.

Report of School Board

In making our annual report for the ensuing year we think we can report as favorably as in the past.

We feel that our teachers were conscientious and faithful in the school-room but we feel that it is impossible for our scholars in our district schools to receive the greatest help and benefit from the teachers owing to so many different classes, as it is impossible for the teacher to give as much time to each class as would be of the most help to the scholars. We wish it might be possible to unite some of the districts but find it not as satisfactory as we would wish owing to the long distance some of the children have to go.

Respectfully submitted,

H. T. HEATH, CLARENCE E. JEWELL, CHAS. E. KIMBALL,	} School Board.

This certifies that I have examined the accounts of the treasurer of the town school district and find them correct and proper vouchers for the same.

H. DANA KIDDER, Auditor.

Feb. 25, 1907.

The Minot-Sleeper Library

The Minot-Sleeper library has enjoyed another year of prosperity, and that it continues to occupy a high position in the estimation of the public, is evinced by the liberal patronage accorded it.

During the year 230 volumes have been added to the circulating department making a total of 7,008 in this department. There are also 175 reference books on its shelves. During the same time 7,585 books have been withdrawn from the shelves and the Day-Jackman reading-room has been patronized by 1,275 persons, mostly young people. The reading-room is supplied with 23 of the leading magazines of the day which afford reading of the highest order to all who care to avail themselves of its privileges.

The card catalogue is now substantially completed, about 2,000 cards having been added during the year. This large addition has made the purchase of a new card case necessary and one with a capacity of 10,000 cards has been added, which will supply all needs in this direction for a number of years.

Another material improvement made during the past year has been the addition of a catalogue of the birds, animals and reptiles of the Pray collection. This has been bound and placed on the table near the cases so that any one who desires may learn the names of the various exhibits inside the cases.

It has been the aim of all having any thing to do with

the management of the library to keep the expenses at the **lowest** point consistent with the needs of the library and **the** desires of the public, and the trustees congratulate the **tax** payers of the town that so large a return is given to **the** public for the cost of this institution.
